

NH MOOSE LOTTERY COMPUTER SELECTION AND OTHER INFORMATION 2017

When an application for the lottery comes into the Fish & Game Department, it is checked to be sure it is complete and legible and that the correct fee has been paid. Information from complete applications received by the lottery deadline is entered into the computer for the drawing. Online applications received by the lottery deadline are downloaded into the lottery database. Once all applications have been entered, the information is verified to confirm eligibility, unit preference rankings, bonus point status and other application information.

The lottery consists of a computerized random drawing from all eligible applicants. For each bonus point an applicant has accrued, his or her name is entered in the lottery once (e.g. an applicant with 14 points has 14 chances of being drawn). The selection of permittees is begun when someone is selected to press a key on the computer that begins the randomization process. During the process, residents and non-residents are treated separately. The appropriate number of potential resident and non-resident permittees and 500 alternates are selected. The final selection order is then set.

Based on the order in which they were selected, applicants are assigned permits. The computer first tries to assign an either sex permit in one of the units ranked by the applicant starting with their most preferred unit; if none of their ranked units is available, it then tries to assign an antlerless-only permit. If none of these are available or if the applicant has indicated that he or she is unwilling to accept an antlerless-only permit, the application is marked as ineligible and the applicant is not offered a permit. This process continues until all permits are filled.

When permit assignment is complete, a list of permittees will be read and posted. Lists of alternates will also be posted. The selection order for alternates determines the order in which they will be considered to replace permittees if a permittee chooses not to hunt.

Lists of winners will be available to the public after the lottery:

- At the front desk at Fish & Game Headquarters (one to a customer please)
- On our web site (<http://www.HuntNH.com>) after 11:00am
